

Data Science Intern (m/f/x)

Berlin

HelloFresh is the leading global company in the expanding online meal kit delivery market. This is a unique opportunity to gain valuable and challenging experience at a rapidly growing start-up. Responsibility is given from day one to use your initiative and creativity to help us grow our business.

About the job

We are looking for a bright, result-oriented individual who can translate data insights into recommendations that create business value in areas of marketing and customer lifecycle. Our team has a solid and very diverse background in data science, including predictive modeling, optimization and validation techniques. So, if you are passionate about finding answers in scientific investigation, and leading new solutions, feel invited to apply! The preferred duration for the internship is 6 months, starting as soon as possible.

As a Data Scientist Intern at HelloFresh, you will:

- Become a part of a highly skilled team working in a dynamic and exciting environment
- Collaborate with peers on the creation and improvement of advanced analytics models
- Derive actionable business insights from complex data sets across multiple platforms
- Work closely with the product developers to devise pertinent algorithms and applications for multiple business users

Who we're looking for

- B.Sc. degree or final year of bachelor's studies in a quantitative field, e.g. Engineering, Econometrics, Statistics, Mathematics or Computer Science.
- Analytical and quantitative skills, the ability to use data to back up assumptions and test hypotheses
- Experience with feature engineering, model building, and evaluation, A/B or online testing with large-size data sets, preferably not only in an academic setting
- Strong command of statistical programming languages (especially Python, R is a plus); other programming experience (Spark, Scala, etc.) is a plus
- Excellent communication and team collaboration skills
- A willingness to learn, creative problem-solving attitude and a customer-oriented approach complete your profile

What we offer

- The opportunity to get into one of the most intellectually demanding roles at one of the largest technology companies in Europe

- Cutting edge technology, allowing you to work with state-of-the-art tools and software solutions
- Competitive compensation and plenty of room for personal growth
- Great international exposure and team atmosphere
- Work in a modern, spacious office in the heart of Berlin with excellent transport links, employee discount on all HelloFresh products, and plenty of free food in the office

Are you up for a challenge?

Please submit your complete application (resume + cover letter) including your earliest starting date to Natalia Sverchkova: nsv@hellofresh.com
